CAREER HISTORY

FORCON International – Project Manager, Independent Consultant

Providing construction management and engineering services in cases of contractor defaults. Assignments included management of completion of contracts, rebidding of defaulted contracts, negotiation and settlement of claims, scheduling, and estimating on industrial facilities, highways, airports, and treatment plants.

- Major projects included: The a major aluminum façade high rise contractor, Port of Charlestown Ship Terminal Expansion, the Arrandale Correctional Institute in Georgia, Aquatic Ecosystem Restoration, educational facilities in several states, completion of the St. Petersburg Airport control tower, completion of foundation contracts left by the failure of Raymond International, highway construction on interstates and other highways in Florida and other states, and water and waste water treatment plants.

Bechtel Corp. - London, United Kingdom - Principal Vice President and Project Manager

Proposals: Managed the bid proposal and project start-up for the management services of the \$1 billion Gatwick Airport capital expansion program. Managed the bid proposal for the new \$2 billion Muscat International Airport terminal. Managed proposals for new railways in Hong Kong.

Bechtel - Panama City, Panama - Principal Vice President and Proposal Manager

Panama Canal: Managed the tender process, including significant preliminary design, for the \$5.1 billion Panama Canal expansion project. This proposal required extensive design work based on general performance specs and extensive construction planning. Managed and worked closely with consortium partners from Japan and China.

Bechtel Corp. - Doha, Qatar - Vice President and Project Manager

Managed the EPCM contract for the design and construction of the \$12 billion New Doha International Airport in Qatar. Involvement included negotiations with the client leading up to contract signing, preliminary and final design of facilities, procurement of construction contractors, and management of all construction activities. Total labor on the project exceeded 12,000 people.

FORCON INTERNATIONAL

Bechtel Corp. - Lima, Peru - Project Manager

Managed the EPC contract for the design and construction of the expansion and renovation of the Jorge Chavez International Airport in Lima, Peru. Scope included completion of the scope book, preparing and negotiating the final estimate, contract negotiations, and EPC design and construction.

Bechtel Corp. - Sao Paulo, Brazil - Project Manager

Managed business development efforts and developed estimates and proposals for new work in Latin America.

Bechtel Corp. - Jakarta, Indonesia - Project Development Manager

Managed development of projects in Indonesia. Major projects included:

- The Tanjung Api Api coal shipping terminal and railroad construction project in Sumatra.
- The Umbulan Spring Bulk Water Transmission Project in Java.
- Other major toll road, rail and building projects.

Louis Berger International Inc. - Benxi, China - Advisor

Provided advisory, oversight, and monitoring services to the Chinese government and Chinese contractors on a 26-kilometer highway project, which included 16 bridges and 2 tunnels. Served as a member of the Joint Supervisory Team consisting of Berger, the Chinese highway authority, and the prime contractors. Provided status reports to the Asian Development Bank. Assignment ended due to winter shutdown.

Al Harbi Trading and Contracting Company - Kuwait City, Kuwait - Project Manager

Managed an emergency reconstruction and cleanup contract with the U.S. Army Corps of Engineers and the Kuwait government to rebuild war-damaged roads, bridges, and airport and air force base facilities and clean up war-related debris. Also completed a fast track design/build contract with the Kuwait government for construction of taxiways and aprons at an air force base.

Kuk Dong Construction Company - Al Khobar, Saudi Arabia - Consultant

Provided construction management, scheduling and cost engineering services to the Korean general contractor on a \$225 million military city project including housing, military, commercial and industrial facilities, streets and utilities. Services included rescheduling of the project and manpower forecasting.

Bechtel Corporation - Orlando, FL - Project Superintendent

Responsible for all construction activities and supervision of subcontractors on the expansion of terminal buildings and food service facilities at the Orlando, Florida International Airport. Work included expansion of major terminal building while in use and without interruption of flight schedules and passenger flows.

Pegel Arabia - Dhahran, Saudi Arabia - Project Manager

Responsible for all construction activities on a \$125 million facilities and housing complex of the New Dhahran International Airport.

Pegel Arabia - Riyadh, Saudi Arabia - Project Manager

Responsible for all construction activities on \$360 million contract for the construction and maintenance of the four main terminal buildings of the new Riyadh International Airport. Work also included aprons, maintenance facilities, and the general aviation terminal.

Ebasco Services Company - New York, NY - Lead Civil Engineer

Responsible for all site civil engineering and inspection activities on a two unit nuclear power plant in Veracruz, Mexico. Supervised and trained 50 Mexican national engineers.

Bechtel Power Corporation - Grand Gulf, MS – Planner

Served as a planning and scheduling engineer and as a civil field engineer on a two unit nuclear power plant. Also served as a structural design engineer in the Los Angeles office.

Stone and Webster Engineering Corp. - Boston, MA – Designer

Designed structures and foundations for nuclear and fossil fuel power plants.
